

AHMED SAAD AL-FAIDI

Computer Science Graduate | AI & Data | IT & Cybersecurity
ahmed.s.alfaidi@gmail.com | +966 557038063 | Saudi Arabia | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Science graduate from Taibah University with hands-on experience in full-stack development, database engineering, and network security. Built and deployed a production-level HRMS for a real company, and designed secure corporate networks using Cisco Packet Tracer. Certified in Cybersecurity (Saudi Digital Academy) and Data & AI (Red Sea Global, 2026). Passionate about Artificial Intelligence and actively building skills in machine learning and data-driven systems. Seeking an entry-level role in AI, data analysis, or IT where I can grow and contribute to intelligent, impactful solutions.

WORK EXPERIENCE

Full-Stack Developer — Graduation Project

Jan 2025 – Jan 2026

Al-Sanad Al-Afdal Company | Madinah, Saudi Arabia

- Architected and delivered a full-stack HRMS using PHP, JavaScript, and MySQL, centralizing employee lifecycle management and eliminating manual tracking workflows.
- Designed a normalized relational database schema with optimized queries, ensuring data integrity and scalable performance across all HR modules.
- Implemented role-based access control and secure backend logic; produced comprehensive technical documentation adopted by the company's IT team.

PROJECTS

Network Security Simulation | Cisco Packet Tracer

- Designed a multi-layer corporate network featuring VLAN segmentation, ACL-based access control, and perimeter firewall rules, achieving full isolation between departments.
- Modeled threat scenarios including unauthorized access and lateral movement; documented attack vectors and mitigation strategies.

CERTIFICATIONS

Data & AI Program

March 2026

Red Sea Global | Talent Development Division

15-hour intensive program covering Data Analytics and AI fundamentals; completed hands-on labs using Python (Anaconda & Jupyter Notebook) for data analysis and AI exercises.

Cybersecurity Track

2025

Saudi Digital Academy (Satr Platform)

Comprehensive track covering cybersecurity principles, threat analysis, and defense strategies.

TECHNICAL SKILLS

AI & Data: Python (Anaconda, Jupyter Notebook), SQL, Data Analysis Fundamentals, AI/ML Concepts

Networking & Security: TCP/IP, VLANs, ACLs, Firewall Configuration, Cisco Packet Tracer

Programming & Web: JavaScript, PHP, Java, HTML, CSS

Databases: MySQL (Design, Queries, Optimization, Data Management)

DevOps & Tools: Docker (Basic), Git, Linux CLI, Microsoft Office, Technical Documentation

EDUCATION

Bachelor of Computer Science

Jan 2026

Taibah University | Madinah, Saudi Arabia | Graduated

LANGUAGES

Arabic: Native **English:** Professional Working Proficiency
